

AKSEN LABS

[PROJECT OR OUTCOME TITLE]

[One-line description of the proposed business outcome]

PREPARED FOR	[CLIENT NAME]
PREPARED BY	Aksen Labs
DATE	[DATE]

Proposal reference: [AKSEN-YYYY-###] • Valid until [DATE]

FROM ATTENTION TO ACTION.

PROPOSAL SUMMARY**[A clear outcome-focused headline]**

[Write two short paragraphs describing the client's current situation, why the problem matters now, and the result this engagement is designed to create. Use client language from discovery and avoid generic AI claims.]

RECOMMENDATION [State the recommended package or engagement, the primary result, and why this is the right starting point.]

Success outcomes

- [Outcome 1 — observable business or customer improvement]
- [Outcome 2 — measurable speed, quality, conversion, cost, or control improvement]
- [Outcome 3 — useful operating capability delivered to the client team]

What is not being promised

[Record important boundaries early: for example, no binding quotations by an assistant, no unsupported automation, no guaranteed performance result, or no direct booking in release one.]

PROPOSED SOLUTION

Scope and customer experience

Primary journey

1. [Step 1 — customer or staff trigger]
2. [Step 2 — information or interaction]
3. [Step 3 — system decision or assistance]
4. [Step 4 — human approval or handoff]
5. [Step 5 — completed business outcome and measurement]

Included deliverables

- [Deliverable with quantity, platform, or acceptance condition]
- [Deliverable with quantity, platform, or acceptance condition]
- [Testing, training, documentation, launch, and support deliverables]

Assumptions

- [Client access, content, data, decision-maker, or platform assumption]
- [External approval, provider, policy, or dependency assumption]
- [Volume, language, user, location, or integration assumption]

SELECTABLE PACKAGES

Options designed around the client’s priorities

Package	Best for	Included	Timeline	Fee
01 [FOUNDATION]	[Need]	[Concise deliverables]	[X weeks]	GHS []
02 [RECOMMENDED]	[Need]	[Foundation plus higher-value capability]	[X–Y weeks]	GHS []
03 [COMPLETE]	[Need]	[Recommended plus advanced channels/integration]	[X–Y weeks]	GHS []
RECOMMENDED OPTION [Package name] at GHS [price], because [brief evidence-based reason].				

Optional add-ons

Add-on	Fee	Notes
[Add-on 1]	GHS []	[Scope / allowance]
[Add-on 2]	GHS []	[Scope / allowance]
[Add-on 3]	GHS []	[Scope / allowance]

DELIVERY

Timeline, responsibilities and acceptance

Stage	Timing	Aksen output	Client input / gate
1. Discovery	[]	[Map, requirements, risks, success measures]	[Decision-maker, access, approved direction]
2. Design	[]	[Journey, wireframes, architecture, content structure]	[Consolidated approval]
3. Build	[]	[Configured solution and integrations]	[Content, access, test users]
4. Evaluate	[]	[Test results, fixes, training, launch checklist]	[Acceptance owner approves]
5. Launch	[]	[Production release and support]	[Final payment and launch approval]

Acceptance criteria

- [Functional criterion with a clear test]
- [Content/data accuracy criterion and owner]
- [Performance, usability, or channel criterion]
- [Training, handover, or documentation criterion]

INVESTMENT

Commercial summary

Item	Fee	Billing trigger
Selected package: [NAME]	GHS []	[50% / 30% / 20% or agreed milestones]
Optional add-ons	GHS []	[Trigger]
Recurring support	GHS [] / month	[Start date and billing cycle]
External usage allowance	GHS []	[Allowance and approved overage treatment]

Pricing note

[State whether fees include or exclude taxes. Identify third-party platform, model, messaging, voice, storage, data, travel, production, paid-media, or licence costs. If showing a discount, name the standard price, discounted price, discount reason, and expiry without weakening Aksen's normal value.]

Ongoing support

[Define support hours, response targets, included change allowance, reporting cadence, knowledge updates, monitoring, and escalation. Avoid promising an SLA that has not been operationally approved.]

TERMS

Scope controls and commercial assumptions

Item	Agreed position
Payment	[Deposit, milestone schedule, currency, taxes and late-payment treatment]
Start condition	[Payment, access, content and decision-maker requirements]
Review rounds	[Number of consolidated rounds and response window]
Change control	[How new requirements are estimated, approved and scheduled]
Warranty	[Defect period and distinction between defects and enhancements]
Ownership	[Project-specific deliverables, reusable Aksen IP, third-party components and licences]
Privacy and security	[Data categories, permissions, retention, credentials and client responsibilities]
Exclusions	[Explicitly list work that is not included]
Validity	[Proposal expiry and capacity condition]

AI-specific controls, if applicable

- [Approved knowledge sources and owner]
- [Human approval / escalation points]
- [Prohibited claims or actions]
- [Evaluation, monitoring, disclosure, consent and retention approach]

APPROVAL

Confirm the selected direction

Selection	Package	Fee
☐	[Option 01]	GHS []
☐	[Option 02 — Recommended]	GHS []
☐	[Option 03]	GHS []

By signing, both parties confirm their intention to proceed subject to the final agreement, invoice, and any stated conditions.
